

Streamlining Financial Operations: eInvoicing Case Studies for Non-Profit Organisations

Sam Hassan
Link4, CTO

eInvoicing

4 Points

1. What is it
2. Why do it
3. Who is doing it (CASE STUDIES)
4. How to become eInvoicing ready

Meet Aaron

Restaurant Owner (with great coffee)

Wife does bookkeeping

Takes hours every night

Invoice processing is a time suck

Meet Denise

Denise is Tailem Bend Netball Club President

TBN Club has lost \$150,000 in an online scam

Hackers intercepted the actual original invoice and changed the bank account details

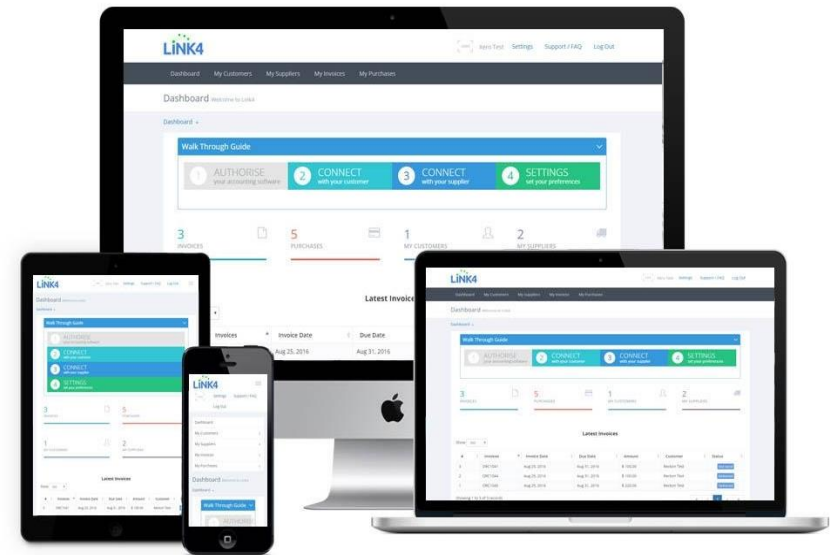

Manual Invoice processing risks

The Solution

1

Allow the accounting systems to talk together – in real time

Email and PDFs – Not Required

Benefits

2

More efficient

Faster Payments

Invoice Scams

Cloud Accounting & Business Systems

3

Benefits

Send invoices to Government Dept.
(Federal, State & Local)

Detect Duplicate Invoices

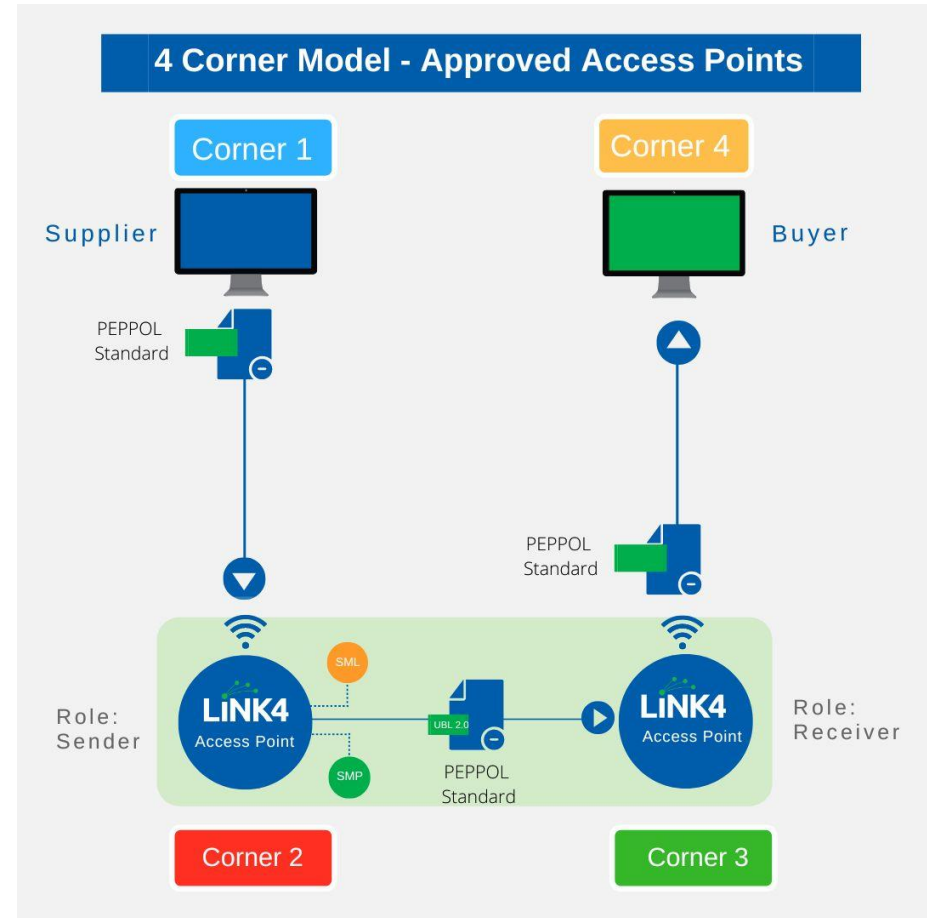

Detect Invoices Not coming from your
Suppliers

Detect Bank Details Change

Business Rules & Validations

Who is doing eInvoicing - SMEs

North Entrance Surf Life Saving

"Link4 works great with Xero and saves me time." Tom, Treasurer

Champion Bay Surf Life Saving

"Invoices are sent straight into MYOB so I don't have to do any manual entry."
Sue, Administrator

Bermagui Surf Life Saving

"I would definitely say that it makes it much easier having it populate straight into Xero. There is so much paperwork to manage and it's very easy to just see it pop up when I go into Xero to reconcile. Considering that these positions are volunteer roles, having things simplified really helps." Dana, Bookkeeper.
